*We have established 4 well-appointed safari camps in the East-African traditional style using solid mahogany furnishings, all ethically harvested and finished. # COMMUNITY INVOLVEMENT AND CONSERVATION IN PRACTICE

We at African Buffalo Safari Trackers Limited, are committed through various programs to work with the local communities and the relevant authorities in all our concession areas. We have made significant strides which are beginning to bear fruit through these efforts, notably the commitment to anti-poaching and our proactive hands-on approach and allocation of funds, equipment and personnel all aimed at protecting and enhancing the natural resources that form the basis from which hunting operations can be effectively conducted and sustained in the long-term. Our vision is that through responsible and collective participation of all the role players we will become one of the premier hunting operators in Africa.
